RECOMMENDATIONS

We highly recommend purchasing a few of the gift boxes, which includes a stamper and design certificate, for those customers who would like to give a stamp as a gift, but want to allow the gift recipient to make their own design choice. The design certificates are completed by the gift recipient at our online redemption portal. One great feature of our gift boxes is that shipping is included for delivery of the redeemed custom stamp design. Our gift boxes give your customer an elegant way to share their creativity.

- Exclusive Clean Hands Technology®
- Effortless to switch stamp designs
- Easier to align with paper
- Better quality impressions every time
- No Assembly tool(s) required

Q. DO YOU SELL TO THE GENERAL PUBLIC?

A. We do not sell directly to the general public. Our customers are the finest retailers in the world and they will bring you our award winning lines.

Q. WHERE CAN I FIND A RETAILER NEAR ME?

A. Please visit: www.threedesigningwomen.com/store-locations to type in your zip code and find a local retailer or visit one of our many online retailers <http://www.threedesigningwomen.com/online-retailers>.

Q. WHAT IS THE PRODUCTION TIME FOR MY ORDER?

A. Custom stamps and embossers take 2-3 business days. Production time will start the next business day after the order was placed. Inks, gift certificates, or any product non-personalized can be shipped 1 or 2 business days after the order is placed.

Q. WHAT IS THE SHIPPING TIMEFRAME FOR MY ORDER?

A. All orders are shipped from Texas within 2-3 business days after the order was placed. Currently certificate orders ship by USPS First Class Mail which can take 2 to 7 days for delivery. We can also ship by FedEx Ground or Home Delivery which takes 1 to 4 business days or FedEx 2Day air. For an additional cost, USPS Priority Mail, Next Day, or International shipping methods are available.

Q. HOW MANY IMPRESSIONS CAN I GET FROM MY STAMP?

A. The number of stamp impressions depends on many variables, including the stamp design (some designs use more ink than others), the type of paper, and the duration of impression. Generally one can expect between 700-1,000 impressions from an ink cartridge.

Q. HOW DO I CHANGE INK CARTRIDGES?

A. Remove your Stamp Design and blot with a paper towel to remove any excess ink before changing ink colors. Compress the stamper about 1/4 of an inch and press in the red side buttons to lock it in place. Gently push the ink cartridge out, you may need to push it with the eraser of a pencil top or a pen. To replace, insert the new ink cartridge in UPSIDE DOWN (wet side down) until it locks/snaps/ clicks into place. Please Click to see our easy-to-follow video instructions.

Q. CAN I BUY A CUSTOM STAMP DESIGN WITHOUT THE STAMPER?

A. Of course! Our stampers feature a patented removable Clip which makes changing Stamp Designs effortless. Now you easily take out the clip and replace it with a new design. Order a design with your address, your monogram, one for the holidays, and one for every part of your life!

FAQ CONTINUED...

Q. CAN I SEE A PROOF OF MY STAMP BEFORE IT GETS PRODUCED?

A. We will be happy to send you a proof if you feel it is necessary. There is a \$5 charge for this service. Please note that it will add 2-3 days to the stamp production time, subject to your response time.

Q. WHAT DO I NEED TO SEND IF I WANT TO USE MY OWN ART FOR A STAMP?

A. Vector images work best and produce the clearest impressions. We accept black and white artwork in the following formats: JPG, PDF, EPS or AI. JPGs and PDFs need to be 300 DPI or more. If it is an EPS or AI please make sure everything is converted to outlines. At this time we cannot accept custom artwork for embossers. (Note that there is a \$20 fee for using your own art)

Q. WHAT PAPER WEIGHT/THICKNESS CAN MY EMBOSSER ACCOMODATE?

A. 80# text weight envelopes, paper napkins and even tissue paper. Our note cards will be too thick but our panel cards and foil seals work beautifully.

Q. MY STAMPER SAYS IT HAS REVOLUTIONARY CLEAN HANDS TECHNOLOGY®? WHAT DOES THIS MEAN?

A. Our stampers feature a patented removable Clip which makes changing Stamp Designs clean and easy. Now you can use as many Stamp Clips as you like with just one stamper! Simply squeeze the tabs on the underside of the removable clip to remove and slide a new one in.

Q. WHAT HAPPENS IF I RUN OUT OF CHARACTERS WHEN PLACING MY ORDER ON THE PORTAL?

A. All designs are offered with a MAXIMUM amount of characters to ensure that your stamp or embosser will be readable and attractive. If you run out of characters, please abbreviate as necessary to fit the information. All embosser character limits are set and cannot be changed. DO NOT ADD INFORMATION USING THE "SPECIAL INSTRUCTIONS" box - The additional type will NOT appear in the stamp. For stamps, you will need to upgrade to a CSUNIQUE order for an additional \$20.

Q. WHEN DO I NEED TO ADD ASTERISKS?

A. You only need to ADD asterisks where you want to separate groups of information, such as 62335 WINSTON COURT * AUSTIN, TX 78101 Or, between names: Jenny * Hal * Erin * Sarah The asterisk allows us to know where to add the divider bullet on your stamp. You do NOT need to add asterisks on both sides of your information, such as with a name at the top of the stamp. We will automatically add bullets on both sides of this information.

BEST PRACTICES

1. Stamp on a clean, dry, flat, hard surface (ex. table or desk).
2. Test your Stamper on a piece of scrap paper before stamping on Stationery.
3. Separate the item (ex. note card, sticker, envelope, tag) from the stack before stamping. For best impression, stamp a single layer at a time.
4. For envelopes stamp them before you stuff them. This will ensure a clearer and even impression.
5. Keep the stamp steady. Do not rock the stamp, as this may result in an uneven impression or unwanted marks.
6. Remember that stamping on textured paper is possible, but it may not result in a perfectly even impression.
7. Change out the ink-pad when changing designs. When a stamp has been used with an ink-pad for a period of time, the ink-pad becomes indented with that design. When a new design is inserted it is not able to make full contact with the ink-pad due to the impressions from the previous design.
